ReactJS, Redux, VueJS, NextJS, HTML, CSS, Typescript, JavaScript, TailwindCSS, NodeJS, Express.js, MongoDB, Zustand, Git, GitHub, Render, Vercel, React Router, Ant Design, AJAX, Docker, Redis, MySQL, C#

Experience

Wema Bank Plc

Backend Developer • Lagos, Nigeria

08/2025 - Present

- Designed and developed well-documented RESTful APIs using C# and ASP.NET Core to support scalable web and mobile applications.
- Implemented clean architecture and separation of concerns to improve maintainability and testability of backend services.
- Integrated APIs with relational databases using Entity Framework Core, including migrations and optimized queries.
- Applied authentication and authorization mechanisms (JWT, session-based auth, or Identity) to secure API endpoints.

MolarStrata Labs

Full-Stack Developer • Lagos

08/2024 - 05/2025

- Built and maintained APIs using Node.js and Typescript.
- Developed a dashboard interface with Google OAuth authentication, leveraging Zustand for efficient client-side state management.
- Implemented server-side rendering (SSR) to improve performance, SEO, and initial page load times.
- Optimized frontend delivery by serving static assets via a Content Delivery Network (CDN) for faster global access.
- Containerized applications with Docker to standardize local development and streamline deployment workflows.

Quibble

Frontend Developer • Remote, United States

09/2023 - 09/2024

- Developed pixel-perfect, responsive user interfaces for property management systems using React.js and Ant Design.
- Ensured mobile and cross-browser compatibility by implementing fully responsive layouts.
- Improved website performance and maintainability by following modern development best practices.
- Managed application state and data flow using Redux and the Context API to ensure seamless user experiences.

EF Network Limited

Frontend Developer • Abuja

06/2023 - 12/2023

- Maintained and enhanced legacy frontend codebase using Vue.js and TypeScript to support core ride-hailing features.
 - Implemented multilingual support, enabling French and Portuguese translations across the platform.
 - Improved code quality and maintainability while working within a legacy system environment, increasing app efficiency by 20%.
 - Collaborated with cross-functional teams to deliver incremental updates without disrupting core functionality.
-

Education

Landmark University

Computer Science • Omu-Aran, Kwara

09/2022
